

**QUESTIONS ASKED AND ANSWERS PROVIDED
DURING THE ORDINARY GENERAL ASSEMBLY MEETING OF
BRİSA BRIDGESTONE SABANCI LASTİK SANAYİ VE TİCARET ANONİM ŞİRKETİ
DATED APRIL 19, 2024**

Question: Has there been any development regarding the earthquake seismic isolator with Bridgestone?

Answer: Seismic isolator is a product produced by Bridgestone with limited capacity, imported to our country in the past and distributed by Brisa. After the February 6 earthquake, it came to the agenda again. Brisa has submitted its request to purchase more of this product and to produce it with its own capacity, but the capacity at Bridgestone's factory is limited under current conditions. Since it is a high-tech product, investment costs and a certain period of time are required for capacity increase. This option is also on the agenda with Bridgestone.

Question: To what extent was the large size tire investment target realized at the Kocaeli plant?

Answer: A machinery park is being established for the production of large size tires, and Brisa aims to reach a production capacity of 1 million by 2025. It is anticipated that Turkey will be the leader in commercial tire production in the coming period as the world's 2nd largest commercial vehicle park.

Question: What are the developments regarding the capacity increase target at the Aksaray plant?

Answer: Brisa continues its efforts for Aksaray capacity increase. In this regard, the current capacity of 2.5m will increase to 4m by the end of the year. Since the import procurement period for these machines is 18 months, there may be some disruptions. However, there does not seem to be any problem for the planned capacity increase at the moment. Brisa is building the 4th high-tech mixer in Aksaray and aims to go to 4.6 million units by the end of 2026.

Question: We produce TOGG tires, but what is the reason why there is no special communication about this?

Answer: Brisa makes its disclosures about such business relationships and developments within the framework of capital markets legislation and confidentiality conditions between the parties.
